To all you dear folks at NAAC Weatherization

2011

Wishing you the true
blessings of the season...
peace of mind,
joy of heart,
and love all around you.

My gratitude to all of you.
May God richly bless and keep you.

Mrs. Josephine Pedrick

December 2011

To all of you dear folks at NAAC Weatherization:

Words can never express fully how much I appreciate all you did for me to help my heating and electric bills. I could never have afforded to pay to have all of that work done. I have noticed the differences all ready.

Your workers are a great crew. They were so respectful of me.

Please thank George, Steve, A.J. and the rest whose names I don't ~~know~~ know, also Tyrese.

Thanks a million for all you did to help me.

Sincerely, Mrs. Josephine Pedrick

Dear Ms. Gould & Members of the Native American Advancement Corp:

Thank you for the insulation work you did on my log cabin between 10/3 & 10/6/11. Today's outside temp was 38° at 7AM & inside it was 64° with the thermostat set at 63°. Quite a difference. Thank you also for the new fridge.

Please thank Mike & his crew for their labor.

Sincerely,
Mary A. LaTessa

Just a few lines to let you know how pleased I am with the work and upgrades your winterization crew just finish in our home.

Mike and his crew performed in a courteous and knowledgable way and made sure to advise us as to why each up grade was being done and the benifits we should see from each repair or upgrade.

Everyone made sure that all was cleaned up and in its proper place when the days work was done.

A great big THANK YOU to your organization and workers for your service.

God Bless and Thank You

To Whom It May Concern

I want to truly thank the people (all of you) involved and responsible for the Weatherizer and energy program.

Its hard to express the needs of the community and home when you are use to going without. I am grateful to all of you on my mothers behalf. My Indian, Lenape mother said the workers were professional and productive. They were courteous and respectful. The organizers were diligent in their duties. The trust of the persons receiving the services was gained; an important goal. A lot of Indian people don't want to depend on help from others because of pride and past disappointments. So they are sincerely thankful and appreciative of all benefits of the program.

The Weatherization services has reached many and hope it continues to reach people in need. With energy cost so high now days, any savings to reduce heating and cooling costs is welcome.

My heart-felt thanks to everyone. I think I speck for many.

Sincerely
